

III. REMARKS

1. Claims 5 and 10 are amended. Claim 16 is new.
2. Applicant appreciates the allowance of claims 1-4, 7, 13 and 15.
3. Claims 5-6, 8, 10-12 and 14 are not unpatentable over Eichinger in view of Ogasawana. Claims 5 and 10 are amended to recite that the means for receiving user data and means for examining the user data to find out the access rights of the user of the wireless communication device are part of the start up mode of the wireless communication device. A similar feature can be found in allowed claim 1. As stated in claim 1 "wherein in connection with starting up of the wireless communication device" the user data stored in said user identification module are examined to find out the access rights of the user of the wireless communication device.

This is not disclosed by Eichinger in view of Ogasawana. Thus, for the same or similar reasons related to the allowability of claim 1, claims 5 and 10 should now be in a condition for allowance.

Claims 6, 8, 11-12 and 14 should be allowable at least by reason of their respective dependencies.

For all of the foregoing reasons, it is respectfully submitted that all of the claims now present in the application are clearly novel and patentable over the prior art of record, and are in proper form for allowance. Accordingly, favorable reconsideration and allowance is respectfully requested. Should any unresolved issues remain, the Examiner is invited to call Applicants' attorney at the telephone number indicated below.

A check in the amount of \$900 is enclosed for a one-month extension of time and basic filing fee. The Commissioner is hereby authorized to charge payment for any fees associated with this communication or credit any over payment to Deposit Account No. 16-1350.

Respectfully submitted,
